

B.J. Bryant

Construction Manager/Inspector

LICENSES & CERTIFICATIONS

Certified Florida General Contractor – Lic. #CGC1515586
Certified Florida Roofing Contractor – Lic. #CCC1328776
Certified Florida Home Inspector – Lic. #HI2922

EDUCATION

Courses in Machining and Numerical Control, 1983
Yuba City Junior College, Yuba City, CA

Courses in Electronics, 1986
ICS Correspondence College

Associate Technical Arts Degree in Mechanical Engineering Technology, 1994
Lower Columbia Junior College, Longview WA

Bachelor of Science in Engineering, 1998
Kennedy Western University

PROFESSIONAL EXPERIENCE, MILITARY SERVICE & COMMUNITY INVOLVEMENT

For over 30 years Mr. Bryant has been working in structural, mechanical and electrical engineering design and construction. His structural experience includes the design and construction of structural steel, concrete, masonry, light gage metal, timber, engineered wood products. His mechanical experience includes the design and construction of sand and gravel processing equipment, rock crushers, conveyors, vibrators, screens, support and safety equipment for both mobile and stationary applications utilizing self-contained diesel, hydraulic and electric dependent power sources. Mr. Bryant's electrical experience includes the design of programmable controller cabinets and machine circuitry, as well as preparing electrical, hydraulic, pneumatic and mechanical blueprints and specifications.

In addition to his technical design and construction skills, Mr. Bryant honorably served his country from 1979 to 1983 as Pararescue Jumper Special Operations/Medic Team Specialist for the United States Air Force, where he trained to rescue downed pilots (U2 Crews) in hostile environments and speak multiple foreign languages including Spanish and Korean.

Mr. Bryant has also spent time giving back to his community. In 1992 he worked at Lower Columbia College located in Longview, Washington teaching engineering students technical drawing, descriptive geometry, computer aided drafting, engineering graphics and engineering problems.

Mr. Bryant has spent his career specializing in providing a complete selection of innovative design, operation and maintenance solutions designed around the needs of his clients. In 2009, as a Certified Florida General Contractor, he started a small construction and general maintenance company where he managed a 6-man crew that performed trades such as plumbing, electrical, sheetrock, carpentry, painting, concrete, flooring and window and door installation.

Mr. Bryant joined O'Connell & Associates in 2014 as a Construction Manager and Field Inspector. He is a leader in his field and plays a critical role in all engineering and construction projects by relying on his extensive experience to observe construction, answer contractor questions and enforce technical specifications.
